Upper Midwest Marketing Area, Federal Order No. 30

June 2005

## Inside This Issue:

*New Associate Deputy Administrator for Dairy*..... 2

*Members Named to Fluid Milk Board*..... 2

*Amendments to Appalachian and Southeast Milk Orders*... 3

*Cheese Prices Decline, Butter Price Increases* ..... 3

*Computation of Producer Price Differential* ..... 4

*Utilization and Classification* ..... 5

### Upper Midwest Federal Milk Order

## USDA Announces Interim Final Rule to Amend Upper Midwest Milk Order

The U.S. Department of Agriculture recently issued an interim final rule amending certain provisions of the Upper Midwest Federal Milk Order effective July 1, 2005.

This interim final rule amends, on an interim and emergency basis, certain pooling standards and transportation credit provisions of the Upper Midwest Order. The interim amendments were approved by more than the required number of producers.

The amendments include:

- 1) Revising the supply plant performance standards so that milk seeking to be pooled on the order demonstrates consistent service to the Class I market;
- 2) Preventing handlers located within the states that comprise the marketing area from qualifying milk located outside of these states;
- 3) Eliminating as producer milk diversions to nonpool plants outside of the

states that comprise the marketing area; and

- 4) Establishing a limit so that a transportation credit can only be received for the first 400 miles of any single milk movement.

A separate decision will be issued at a later time that will address proposals concerning the depooling and repooling of milk, temporary loss of Grade A status, and increasing the maximum administrative assessment.

The decision was published in the June 1 *Federal Register*. A paper copy of the decision can be obtained by calling Harold Ferguson toll-free at (888) 301-8224, extension 231. An electronic copy is available at: [www.fmima30.com](http://www.fmima30.com).

**The interim amendments to the order will become effective on July 1, 2005.**

## Pool Summary

- In May, 16,681 producers delivered to the market with an average daily delivery of 4,635 pounds.
- Producer milk totaled 2.27 billion pounds, up 1.6 billion pounds from April and 1.6 billion pounds above May 2004.
- Class I utilization totaled 365 million pounds, down 4.1% on a daily basis

from April. Class I usage accounted for 16.1% of producer milk.

- The May Producer Price Differential (PPD) is \$0.28 per cwt.
- The Statistical Uniform Price is \$14.05 per cwt., down \$0.60 from April, and \$4.56 below May 2004.
- Market statistics for May are shown on Pages 4 and 5.

## May 2005 Producer Milk by Class

	Percent	Product Pounds	Price \$/cwt.
Class I	16.1	364,730,467	16.60
Class II	5.8	130,966,729	12.78
Class III	70.8	1,604,967,923	13.77
Class IV	7.3	164,729,475	12.20
Total		2,265,394,594	

## New Associate Deputy Administrator for Dairy Programs

David Jamison was recently appointed Associate Deputy Administrator of the Dairy Programs section of USDA's Agricultural Marketing Service (AMS).

He replaces Dana Coale who was appointed Deputy Administrator of Dairy Programs in September 2004.

Mr. Jamison grew up on a small dairy farm in Southwest Virginia and received a degree in Dairy Science from Virginia Tech.

Mr. Jamison began his career with Dairy Programs in 1984 in the Chicago Regional Market Administrator's Office where he worked with various aspects of the Federal milk order pro-

gram. He rejoined the family dairy farm in 1987 and then returned to Dairy Programs in 1988 working in the Promotion and Research Branch.

In 1991, Mr. Jamison assumed responsibilities as the Federal order program enforcement officer and has served as the Promotion and Research Branch Chief since 1997.

## Members Named to National Fluid Milk Processor Promotion Board

Secretary of Agriculture Mike Johanns recently announced the appointment of four incumbents and two new members to the National Fluid Milk Processor Promotion Board.

Re-appointed to serve second terms are: James S. Jaskiewicz, Lakeland, Florida (Region 5) and Gary L. Aggus, Springfield, Missouri (Region 11).

Re-appointed to serve a first term after filling a vacancy lasting less than 18 months are: Joseph Cervantes, Binghamton, New York (Region 2) and Jerry Tidwell, Walnut Creek, California (Region 14).

Newly appointed are: Brian Haugh, Dallas, Texas (Region 8) and Michael A. Krueger, Phoenix, Arizona (At-Large Processor).

Terms for these appointees begin July 1, 2005, and expire June 30, 2008. All appointees will be seated at the summer board meeting July 21-23.

The National Fluid Milk Processor Promotion Board is composed of 15 fluid milk processors from 15 geographic regions, and five at-large members. At least three at-large members must be fluid milk processors and at least one must be from the general public. The board was established by the Fluid Milk Promotion Act of 1990 to develop and administer a coordinated program of advertising and promotion to increase the demand for fluid milk products.

The national fluid milk program is financed by a mandatory 20-cent per hundredweight assessment on all fluid

milk processed and marketed commercially in consumer-type packages in the contiguous 48 states and the District of Columbia.

Processors who commercially process and market 3,000,000 pounds or less per month, excluding those fluid milk products delivered to the residence of a consumer, are exempt from assessments.

USDA's Agricultural Marketing Service monitors the operations of the board. It is USDA's policy that membership on industry governed boards and committees accurately reflect the diversity of individuals served by the programs.

June is  
Dairy Month!

## USDA Proposes Amendments to Appalachian and Southeast Milk Orders

The U. S. Department of Agriculture recently announced a decision that recommends adopting proposed amendments to the Appalachian and Southeast Federal milk marketing orders. This decision is based on record evidence of a public hearing held in February 2004 in Atlanta, Georgia.

This decision recommends expanding the Appalachian milk marketing area to include 25 unregulated counties and 14 unregulated cities in Virginia and eliminating the ability to simultaneously

pool the same milk on the Appalachian or Southeast order and a state-operated milk order that has marketwide pooling.

The decision also recommends amending the transportation credit provisions of the Appalachian and Southeast orders to increase the maximum rate of assessment by 3 cents per hundred-weight (cwt) to \$0.095 per cwt and \$0.10 per cwt, respectively.

This decision does not recommend adopting a proposal that would merge

the Appalachian and Southeast milk marketing areas into a single order or a proposal that would create a new "Mississippi Valley" milk order by splitting the Southeast marketing area. Proposals regarding the producer-handler provisions of the Appalachian and Southeast orders will be addressed in a separate decision.

The partial recommended decision was published in the May 20, 2005, *Federal Register*.

## CME Cheese Prices Decline, Butter Price Increases

Cheddar cheese prices on the Chicago Mercantile Exchange (CME) continued to be somewhat volatile from mid-May to mid-June, fluctuating within a 10¢ range for the period.

The CME barrel price on June 15 was \$1.43½ per pound, and the 40-pound block price was \$1.49 per pound. Both prices were down about 6¢ from the mid-May price and were more than 30¢ below year-earlier levels. Currently, cheese prices are roughly halfway

between the 2003 low prices and the 2004 record high prices. With plenty of milk available, cheese production is heavy and inventories are building.

The CME butter price on June 15 was \$1.55 per pound, up 12¢ from mid-May, but more than 50¢ below year-earlier levels. Butter is currently at its highest level since early April.

The May Federal order Class III price of \$13.77 marked the first time the Class III price dropped below \$14.00

since February 2004, an unprecedented span of 14 months. During the 14-month period, the Class III price averaged \$15.62.

The May Class III price was down 84¢ from April and \$6.81 below last year's record high price in May. Using the CME Class III futures market as a predictor, the Class III price is likely to increase slightly in June to about \$14.00, and is expected to peak in September around \$14.70 before declining back to \$13.30 in December.

## Upper Midwest Pool Statistics - May 2005

Market Class I Differential Rate	Pool Plants	Received at Pool Plants	Diverted to Pool and Nonpool Plants	Total	Location Adjustment to Producers	Class I Differential to Handlers

Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326W, Jamie L. Whitten Building, 14th and Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an Equal Opportunity provider and employer.
