## Electronic Dairy Product Reporting

The U.S. Department of Agriculture recently issued a final rule amending the Dairy Product Mandatory Reporting Program as required by law.

The Mandatory Price Reporting Act of 2010 amends the Agricultural Marketing Act of 1946 to provide for the establishment of an electronic reporting system for manufacturers to report sales information for specific dairy products. The amendment further states that the Agriculture Secretary shall publish the information obtained for the preceding week not later than 3:00 p.m. Eastern Time on Wednesday of each week.

The final rule includes regulatory changes for implementing the provisions of the Act. It transfers applicable data collection responsibilities from the National Agricultural Statistics Service to the Agricultural Marketing Service (AMS).

Manufacturers that process and market less than one million pounds of the specific dairy products per year are exempt from the reporting requirements. Price data reported are used by USDA to determine

minimum class prices for raw milk under the Federal Milk Marketing Order Program.

For additional information on the Dairy Product Mandatory Reporting Program, including the schedule of reports, please visit [www.ams.usda.gov/AMSV1.0/DairyProductMandatoryReporting](http://www.ams.usda.gov/AMSV1.0/DairyProductMandatoryReporting).

The final rule was published in the *Federal Register* on February 15, 2012, and will be effective April 1, 2012.

# Recap of Federal Order Data for 2011

The table to the right and the map below summarize data for all Federal milk orders for 2011. Some comparisons are also made to data for 2010.

Producer milk in 2011 for all Federal orders combined totaled 126.9 billion pounds, down slightly from a year ago. Class I producer milk for all Federal orders totaled 44.4 billion pounds, or 35.0% of producer milk. Total Class I pounds for all Federal orders in 2011 decreased by about 0.4% from the previous year. Class I use in 2011 ranged from 12.9% in the Upper Midwest Order to 84.4% in the Florida Order.

The weighted average uniform price for all Federal orders combined for 2011 was \$19.87 per cwt., up from \$16.07 in 2010. The average uniform price in 2011 ranged from \$18.72 in the Upper Midwest Order to \$23.70 in the Florida Order.

It should be noted that Federal order prices are *minimums* and do not necessarily represent what producers are actually paid. Upper Midwest producers, for example, sometimes receive premiums considerably above the Federal order minimums.
