Staff Paper Released

The Upper Midwest Order recently released Staff Paper 14-02 entitled *Milk Hauling Charges in the Upper Midwest Marketing Area - May 2014* prepared by Dr. Corey Freije.

The paper is available on our website at:

www.fmma30.com/Homepage/FO30_STAFF_PAPERS.htm.

This study breaks down and categorizes hauling charges based on state, county, and producer size groups for May 2014. The payroll data for 13,511 producers who were associated with the Upper Midwest Marketing Order were examined.

Key Findings

This study revealed that a majority of handlers participating in the Upper Midwest Marketing Area charge their producers a flat hauling value regardless of the producer's size or volume of milk being marketed. In these cases, the hauling charge per hundred-weight declines as the producer's milk volume increases. Also, the weighted average hauling charge for F.O. 30 shows that han-

dlers do not pass on much of changes in fuel costs to farmers.

Hauling Charges for the Market

The weighted average hauling charge for producers on the Upper Midwest Order in May 2014 was 17.13¢ per cwt., down slightly from 17.43¢ in May 2013.

Hauling Charges by Producer and by State

The Wisconsin weighted average hauling charge of 11.75¢ per cwt. was 5.32¢ below the weighted market average, while the Minnesota average of 22.73¢ was 5.60¢ above the market average. These states supplied 63% and 21%, respectively, of the milk on the market in May 2014.

Wisconsin had the lowest average hauling charge of any of the states included in the study, while North Dakota had the highest average hauling charge at 45.99¢. The North Dakota average was strongly influenced by the low number of farms, the long distance from high demand areas, and less handler competition. Wisconsin, in contrast, has a high number of farms and close proximity to high demand areas.

Happy Holidays!

Members Named to National Dairy Board

The U.S. Department of Agriculture recently announced the appointment of five new members and reappointment of eight incumbents to the National Dairy Promotion and Research Board. All 13 of the appointees will serve three-year terms ending October 31, 2017. The list below shows the current 38 members of the national board. A map of the 12 regions is shown on Page 3.

The National Dairy Promotion and Research Board, established by the Dairy Production Stabilization Act of 1983, administers a coordinated program of promotion, research and nutrition education. The board's activities are financed by a mandatory 15¢ per cwt. assessment on all milk marketed commercially and a 7½¢ per cwt. assessment on milk and dairy products imported into the United States. USDA's Agricultural Marketing Service monitors the activities of the board.
