## USDA Issues Tentative Decision for the Upper Midwest Order

A tentative decision for the Upper Midwest Marketing Area was recently issued by the Secretary of Agriculture. The decision was published in the *Federal Register* on February 14, 2002.

The decision proposes to adopt, on an interim final and emergency basis, provisions that would eliminate the ability to simultaneously pool milk on the Upper Midwest Federal Milk Order and a State-operated milk order that has marketwide pooling.

Additionally, the order would be amended by establishing a limit on the amount of milk that can be diverted to non-pool plants from pool distributing plants regulated under the order. The proposed amendments are based on the record of a public hearing

held at Bloomington, Minnesota on June 26-27, 2001.

This decision is currently being voted on, with a comment period ending 60 days after the *Federal Register* publication date. Because the decision is being handled on an emergency basis, a recommended decision was omitted.

Cooperative associations are being polled to determine whether producers favor the issuance of the order. The order may not be made effective unless cooperative associations representing at least two-thirds of the eligible producers favor its issuance.

Interested persons have until April 15 to submit comments on this decision. Comments (6 copies) should be filed

with the Hearing Clerk, Room 1083, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

For further information on the decision, contact Gino M. Tosi in Washington, D.C. at (202) 690-1366, or by e-mail at: [gino.tosi@usda.gov](mailto:gino.tosi@usda.gov).

A paper copy of the decision can be obtained by calling Harold Ferguson at (888) 301-8224, Ext. 231. An electronic version of the document is available on our web site at [www.fmmampls.com](http://www.fmmampls.com).

# Recap of Federal Order Data for 2001

The table to the right and the map below summarize data for all Federal milk orders for 2001. Some comparisons are also made to data for 2000.

Producer milk in 2001 for all Federal orders combined totaled 120 billion pounds, up from 117 billion in 2000. Class I producer milk for all Federal orders totaled 46 billion pounds, or 38.2% of producer milk. Class I use in 2001 ranged from 20% in the Upper Midwest Order to 90% in the Florida Order.

The simple average uniform price for all Federal orders combined for 2001 was \$14.90 per cwt., up from \$12.11 in 2000. The average uniform price in 2001 ranged from \$13.70 in the Upper Midwest Order to \$17.76 in the Florida Order.

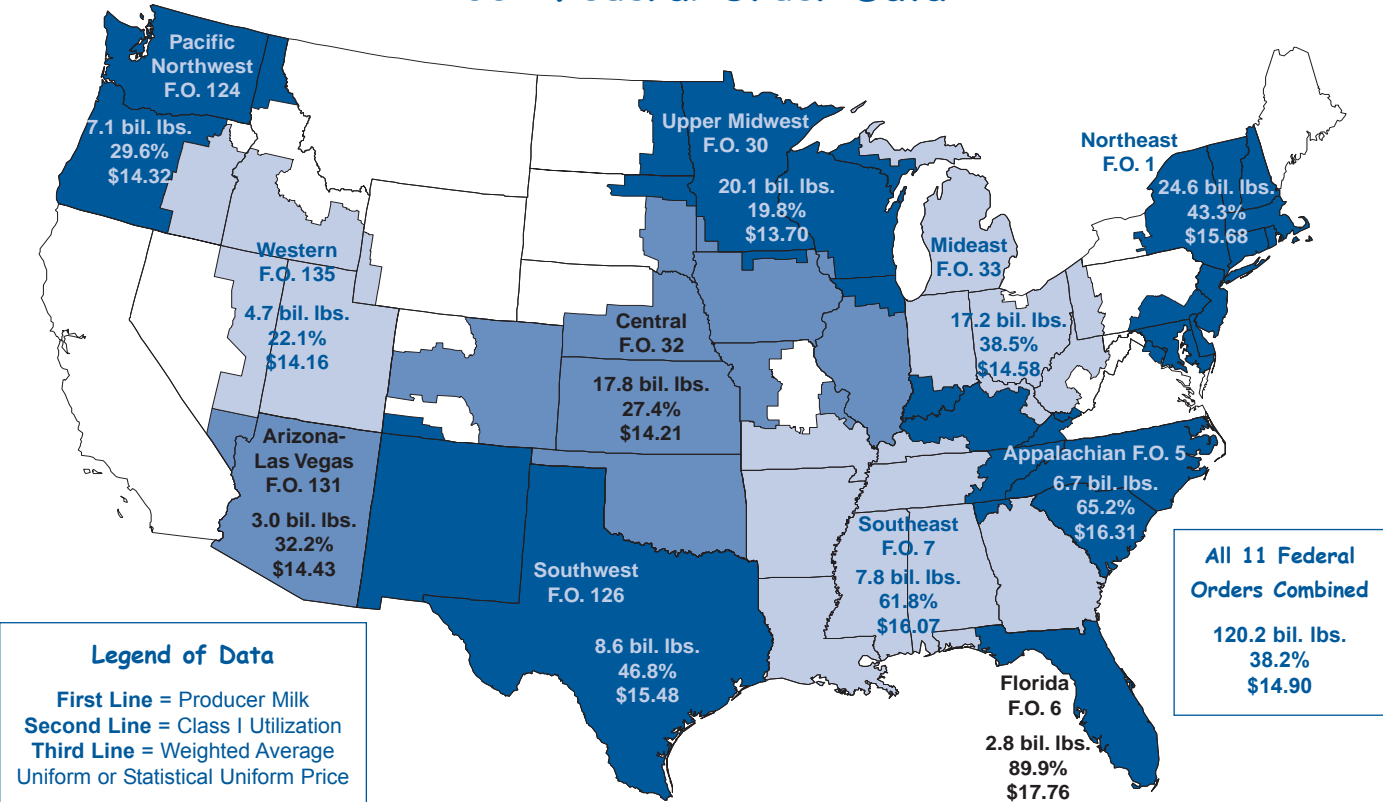

It should be noted that Federal order prices are *minimums* and do not necessarily represent what producers are actually paid. Upper Midwest producers, for example, sometimes receive premiums considerably above the Federal order minimums.

## U.S. Milk Production Down in 2001

The U.S. Department of Agriculture final estimate of United States milk production for 2001 is 165 billion pounds, down 1.3% from 168 billion pounds in 2000. This is the first decline in annual milk production since 1996.

U.S. production per cow for 2001 is estimated at 18,139 pounds, 62 pounds, or 0.3%, below a year earlier. This is the first decline in milk per cow in the U.S. in 15 years. The estimated number of cows on farms in 2001 was 9.115 million head, 91,000 head fewer than a year earlier.

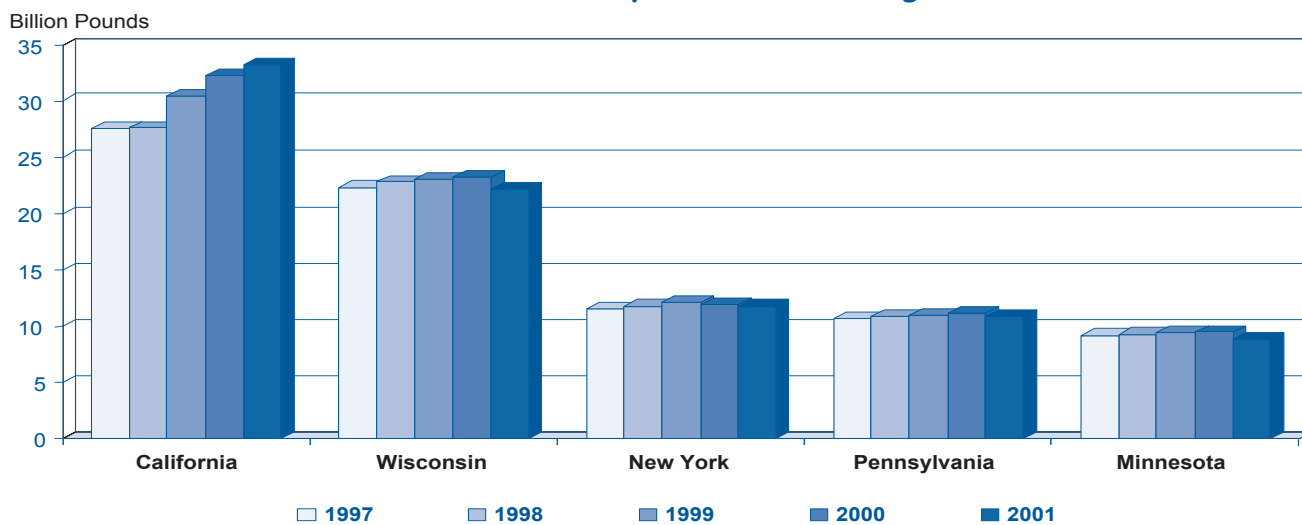

California remained the nation's largest milk producing state, accounting for over 20% of national production in 2001. Wisconsin followed and accounted for about 13% of the U.S. total. Milk production for the top ten milk producing states, combined, accounted for 71% of total U.S. milk production in 2001.

On an annual basis, several of the top ten states changed rank in 2001. Texas dropped from the 7th to the 10th largest milk producing state, while Michigan rose from 8th to 7th and New Mexico rose from 10th to 8th.
