Upper Midwest Recommended Decision

The U.S. Secretary of Agriculture recently issued a Recommended Decision for the Upper Midwest Marketing Area, published in the *Federal Register* on February 22, 2006.

The decision recommends adoption of proposals that would deter the de-pooling of milk and increase the order's maximum allowable administrative assessment rate. Specifically, this decision recommends adoption of amendments that would:

- 1) Establish a limit on the volume of milk a handler may pool during the months of April through February to 125% of the volume of milk pooled in the prior month;
- 2) Establish a limit on the volume of milk a handler may pool during the month of March to 135% of the volume of milk pooled in the prior month; and
- 3) Allow the market administrator to increase the administrative assessment up to a maximum of 8 cents per hundred-weight on all pooled milk, if necessary, to maintain the required fund reserves.

The decision is based on testimony and evidence given at a public hearing in Bloomington, Minnesota in August 2004. A partial decision issued earlier dealt with other issues from this same hearing.

Comments and/or exceptions to the recommended decision must be received **not later than April 24, 2006**. Comments and/or exceptions should be sent to:

Hearing Clerk

Recap of Federal Order Data for 2005

The table to the right and the map below summarize data for all Federal milk orders for 2005. Some comparisons are also made to data for 2004.

Producer milk in 2005 for all Federal orders combined totaled 114.7 billion pounds, up from 103.0 billion in 2004. Class I producer milk for all Federal orders totaled 44.6 billion pounds, or 38.9% of producer milk. This is the third consecutive year that Class I producer milk for all Federal Orders has declined. Class I use in 2005 ranged from 20% in the Upper Midwest Order to 82% in the Florida Order.

The weighted average uniform price for all Federal orders combined for 2005 was \$15.07 per cwt., down from \$15.68 in 2004. The average uniform price in 2005 ranged from \$14.20 in the Pacific Northwest Order to \$17.57 in the Florida Order.

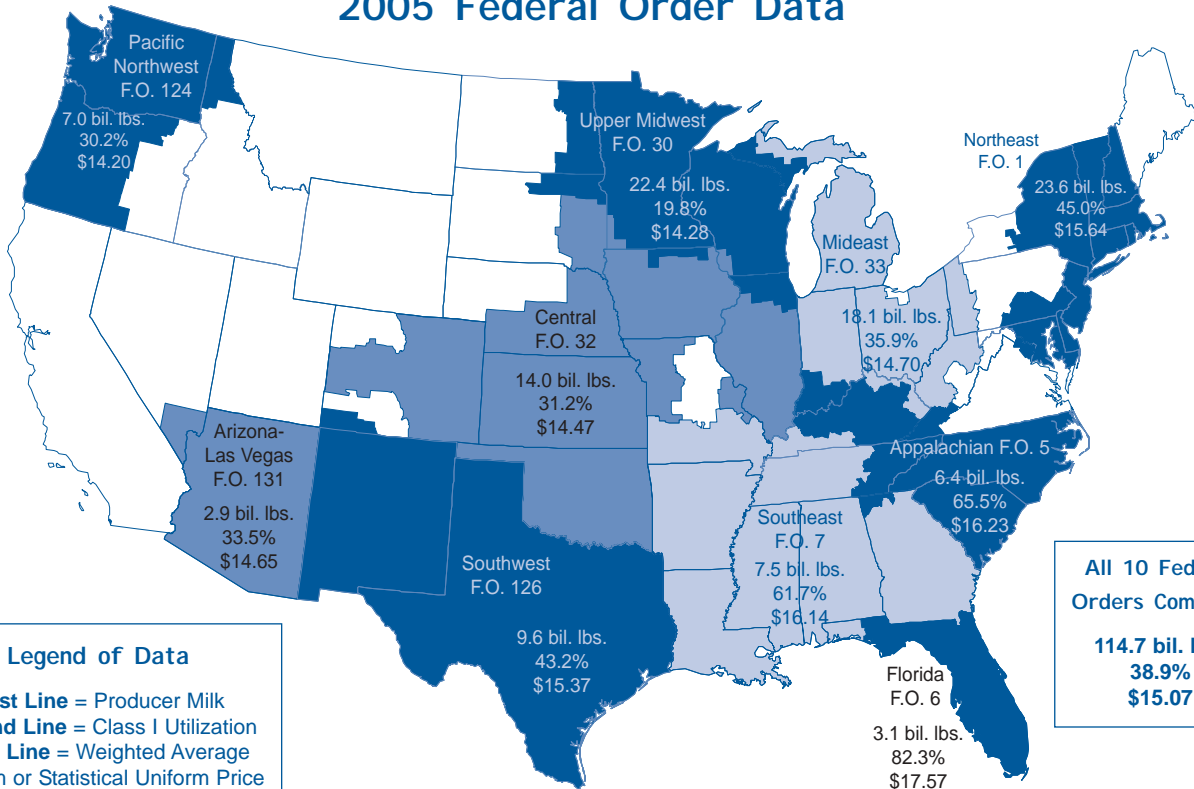

It should be noted that Federal order prices are *minimums* and do not necessarily represent what producers are actually paid. Upper Midwest producers, for example, sometimes receive premiums considerably above the Federal order minimums.
