USDA Issues Final Rule Amending the Orders

The U.S. Department of Agriculture recently issued a final rule amending all Federal milk orders, including the Upper Midwest Order, effective June 1. The final rule amends the producer-handler definition to limit exemption from pooling and pricing provisions to those with total route disposition and sales of packaged fluid milk products to other plants of three million pounds or less per month. The exempt plant definition will continue to limit disposition of Class I milk products to 150,000 pounds or less per month.

A referendum was held, and the required number of producers approved the issuance of the orders as amended.

Upper Midwest Order--Sources of Producer Milk

Producer Milk by State

During December 2009, 68% of producer milk was received from Wisconsin, with 23% from Minnesota (See Table 1 on Page 2). The remaining producer milk, about 9%, was primarily received from Illinois, Iowa, and North and South Dakota. In addition, a small quantity of milk was pooled on the

order from each of the states of Idaho, Indiana, Michigan, Missouri, and Nebraska.

Producer milk in December 2009 totaled 2.7 billion pounds, up 377 million pounds from the previous year. In December 2009, producer milk was received from Nebraska, but not in December of either 2008 or 2007,

Pool Summary

- In April, producer milk totaled 2.88 billion pounds, down 72 million pounds from March, but 81 million pounds above April 2009.
- Class I utilization totaled 367 million pounds, down 1.2% from March on a daily basis. Class I usage accounted for 12.8% of producer milk.
- Class III utilization totaled 2.4 billion

pounds and accounted for 84.4% of producer milk.

- The April Producer Price Differential (PPD) was \$0.36 per cwt.

while no producer milk was received from Montana in December of 2009 or 2008 after having producer milk in December of 2007.

The number of counties from which producer milk was received, the number of producers, and pounds of producer milk represented by each state in December 2009 are shown in Table 1 above. In addition, the percentage of producer milk represented by each state is shown for December of 2009, 2008, and 2007.

The map to the right depicts the states and counties from which producer milk was received in December 2009.

Producer Milk for 15 Top Counties

The 15 top counties from which producer milk was received in December 2009 are shown in Table 2 below, along with the number of producers and pounds of producer milk represented by each county. The rank, number of producers and pounds of producer milk for those same counties for December 2008 are also shown.

Wisconsin has 13 of the top 15 counties

in December 2009, and Minnesota has the other two.

The makeup of the top 15 counties in December 2009 was slightly different from a year earlier. The county ranked 10th in 2009, Grant, Wisconsin, was 16th in 2008, pushing Chippewa County, Wisconsin, ranked 15th in 2008, out of the top 15 in 2009.

There also was some shifting among the counties that remained in the top 15 in both years. For example, Dane and

Fond du Lac Counties switched places between 2008 and 2009, as did Clark and Brown Counties.

The top 15 counties supplied 40% of total producer milk on the order in December 2009, and accounted for 34% of the producers.

A complete list of producer milk by state and county for December 2008 and December 2009 is available on our website at: www.fm30.com/homepage/fo30_data.html.
