Upper Midwest Order--Sources of Producer Milk

Producer Milk by State

During December 2011, 69% of producer milk was received from Wisconsin, with 22% from Minnesota (See Table 1 on Page 2). The remaining producer milk, about 10%, was primarily received from Illinois, Iowa, Michigan, and North and South Dakota. In addition, a small quantity of milk was pooled on the order from

each of the states of Idaho, Indiana, Kansas, Nebraska, New Mexico, Missouri and Utah.

Producer milk in December 2011 totaled 2.5 billion pounds, down 248 million pounds from the previous year. In December 2011, producer milk was received from Kansas, Nebraska, New Mexico and Utah, but not in December of 2010.

The number of counties from which producer milk was received, the number of producers, and pounds of producer milk represented by each state in December 2011 are shown in Table 1 above. In addition, the percentage of producer milk represented by each state is shown for December of 2011, 2010, and 2009.

The map to the right depicts the states and counties from which producer milk was received in December 2011.

Producer Milk for 15 Top Counties

The 15 top counties from which producer milk was received in December 2011

are shown in Table 2 below, along with the number of producers and pounds of producer milk represented by each county. The rank, number of producers and pounds of producer milk for those same counties for December 2010 are also shown.

Wisconsin has 14 of the top 15 counties in December 2011, and Minnesota has the remaining one. The makeup of the top 15 counties in December 2011 was slightly different from a year earlier. The county ranked 14th in 2011, Waupaca, Wisconsin, was 18th in 2010, pushing Morrison County, Minnesota, ranked 15th in 2010, out of the top 15 in 2011.

There also was some shifting among the counties that remained in the top 15 in both years. Dane County, Wisconsin, ranked 5th in 2010, took the top spot in 2011, bumping Stearns County, Minnesota down one notch to the 2nd spot. All of the other counties shifted rank between the two years, with the exception of Kewaunee, Outagamie, Dodge, and Sheboygan Counties in Wisconsin. These counties were in their respective spots both years.

The top 15 counties supplied 39% of total producer milk on the order in December 2011, and accounted for 35% of the producers.

A complete list of producer milk by state and county for December 2010 and December 2011 is available on our website at: www.fm30.com/homepage/fo30_data.html.
