Staff Paper Released

The Upper Midwest Order released a staff paper in April 2012 prepared by Dr. Corey Freije, an agricultural economist with the Upper Midwest Order.

Staff Paper 12-03 entitled "Milk Hauling Charges in the Upper Midwest Marketing Area - May 2011" is available on our website at:

www.fmma30.com/Homepage/FO30_STAFF_PAPERS.htm.

This study breaks down and categorizes hauling charges based on state, county, and producer size groups for May 2011. The payroll data for 15,806 producers who were associated with the Upper Midwest Marketing Order were examined.

Some changes in the methodology of this May 2011 study were made to provide consistency between papers published by this office. The changes are detailed in the full paper, but mentioned here because the 2010 average hauling charge reported here is different than what was published in the 2010 study.

Hauling Charges for the Market

Under the new methodology, the weighted average hauling charge for producers on the Upper Midwest Order in May 2011 was 16.50¢ per cwt., down from 17.83¢ in May 2010.

Hauling Charges by Producer and by State

The Wisconsin weighted average hauling charge of 11.68¢ per cwt. was 4.82¢ below the weighted market average, while the Minnesota average of 23.59¢ was 7.09¢ above the market average. These states supplied 63% and 22%, respectively, of the milk on the market in May 2011.

Wisconsin had the lowest average hauling charge of any of the states included in the study, while North Dakota had the highest average hauling charge at $58.06 \/e$ per cwt., $41.56 \/e$ above the market average. The study found that the North Dakota average hauling charge was strongly influenced by the low number of farms, the long distance from high demand areas, and less handler competition. Wisconsin, in contrast, has a high number of farms and close proximity to high demand areas.

Members Named to National Dairy Board

he U.S. Department of Agriculture has recently announced the appointment of nine new members and reappointment of three incumbents to the National Dairy Promotion and Research Board. The 12 appointees will serve three-year terms ending October 31, 2014. The list below shows the current 38 members of the national board. A map showing the 12 regions is shown on Page 3.

The National Dairy Promotion and Research Board, established by the Dairy Production Stabilization Act of 1983, administers a coordinated program of promotion, research and nutrition education. The board's activities are financed by a mandatory 15¢ per cwt. assessment on all milk marketed commercially and a 7½¢ per cwt. assessment on milk and dairy products imported into the United States. USDA's Agricultural Marketing Service monitors the activities of the board.
