## Additional USDA Pandemic Assistance

**O**n June 15, 2021, Agriculture Secretary Tom Vilsack announced additional aid to agricultural producers and businesses as part of the USDA Pandemic Assistance for Producers initiative. Earlier this year, Secretary Vilsack announced plans to use available pandemic assistance funds to address a number of gaps and disparities in previous rounds of aid.

As part of the Pandemic Assistance initiative announced in March, USDA pledged to continue Coronavirus Food Assistance Program

(CFAP) payments and to provide aid to producers and businesses left behind.

Implementation of the assistance announced today will continue within 60 days to include support to timber harvesters, biofuels, dairy farmers and processors, livestock farmers and contract growers of poultry, assistance for organic cost share, and grants for PPE.

“USDA is honoring its commitment to get financial assistance to producers and critical

## CME Dairy Prices Down in June

**P**rices for all dairy commodities traded on the Chicago Mercantile Exchange (CME) on June 17 are down from a month earlier, and cheese is also below a year ago.

Dairy prices, however, have moved in a much narrower range and been less volatile than much of last year when the pandemic dominated the market, as shown in *Figure 1* on Page 3. The calculation of the payment for an “average” producer is illustrated for

the last four months in the in *Table 1* on Page 3.

On June 18, the CME barrel cheddar cheese price of \$1.54¼ per pound was down 8½¢ from May 18 and 73¾¢ below June 2020. Meanwhile, the 40-pound block price for cheddar cheese on the CME was \$1.49¼ per pound on June 18, 14¢ below last month and down \$1.00¾ from a year ago.

## Pool Summary

- In May, producer milk totaled 939 million pounds, down 2% from last month on a daily basis and more than 66% below last year from an increase in the estimated volume of milk not pooled.
- Class I utilization was 203 million pounds, down 5.2% from April on a daily basis and 8% below last year. In May, Class I use was 21.6% of producer milk.
- The May Producer Price Differential (PPD) was \$(1.44) per cwt.
- The F.O. 30 Statistical Uniform Price in May was \$17.52 per cwt., up \$0.87 from April and \$5.21 above last year.
- Market statistics for May are shown on Pages 4 and 5.

agricultural businesses, especially those left out or underserved by previous COVID aid,” said Secretary Vilsack. “These investments through USDA Pandemic Assistance will help our food, agriculture and forestry sectors get back on track and plan for the future. Since January, USDA has provided more than \$11 billion of assistance directly to producers and food and agriculture business.”

In March, USDA announced \$6 billion (*See Part I in the March 24, 2021 USDA Press Release No. 0056.21*) in available funds through Pandemic Assistance to support a number of new programs or to modify existing efforts. The following programming is planned for implementation within 60 days, which will continue to be focused on filling gaps in previous rounds of assistance and helping beginning, socially disadvantaged, and small and medium sized producers that need support most:

- \$200 million: Small, family-owned timber harvesting and hauling businesses
- \$700 million: Biofuels producers

### ➤ Support for dairy farmers and processors:

- \$400 million: The new Dairy Donation Program to address food insecurity and mitigate food waste and loss
- Additional pandemic payments targeted to dairy farmers that have demonstrated losses that have not been covered by previous pandemic assistance
- Approximately \$580 million: Supplemental Dairy Margin Coverage for small and medium farms

➤ Assistance for poultry and livestock producers left out of previous rounds of pandemic assistance:

- Contract growers of poultry
- Livestock and poultry producers forced to euthanize animals during the pandemic (March 1, 2020 through December 26, 2020)
- \$700 million: Pandemic Response and Safety Grants for PPE and other protective measures to help specialty crop growers, meat packers and processors, seafood industry workers, among others
- Up to \$20 million: Additional organic cost share assistance, including for producers who are transitioning to organic

As the economy continues to gain strength after the Biden Administration’s historic vaccination and economic relief efforts, USDA is working with producers and agricultural businesses to ensure they have the resources and tools to thrive in 2021 and beyond.

The funding associated with USDA Pandemic Assistance is meant to serve as a bridge from disruptions associated with the pandemic to longer-term investments to help build back a better food system. Through USDA’s Build Back Better initiative, USDA has already announced \$5 billion in a mix of loans, grants and innovative financing to make meaningful investments to build a food system that is more resilient against shocks, delivers greater value to growers and workers, and offers consumers an affordable selection of healthy food produced and sourced locally and regionally by farmers and processors from diverse backgrounds.

“We have more work to do to build back a better food system, strengthen

our supply chains, and make sure American agriculture gives our farming and ranching families every opportunity to earn a good living,” said Secretary Vilsack. “As the economy continues to bounce back, USDA will ensure American agriculture is ready to seize the moment.”

As USDA looks to long-term solutions to build back a better food system, the Department is committed to delivering financial assistance to farmers, ranchers, and agricultural producers and businesses who have been impacted by COVID-19 market disruptions.

Since USDA rolled out the Pandemic Assistance initiative in March, the Department has announced approximately \$6.8 billion in assistance (*See Part II and III in the March 24, 2021 USDA Press Release No. 0056.21*) to producers and agriculture entities through the following programs:

- \$6.295 billion: Coronavirus Food Assistance Program (CFAP) payments to farmers, ranchers and producers (*March 24th*)
- \$35 million: Value Added Producer Grants (*March 5th*)
- \$169.9 million: Specialty Crop Block Grants (*April 13th*)
- \$75 million: Gus Schumacher Nutrition Incentive Program (*April 13th*)
- \$37.5 million: Beginning Farmer and Rancher Development Program (*April 13th*)
- \$80 million: Payments to Domestic Users of Cotton (*April 13th*)
- \$92.2 million: Local Agriculture Market Program (*May 5th*)
- Approximately \$20 Million: Pandemic Cover Crop Program (*June 1st*)

For February, in this example, that is: [(350-170) x \$0.00080] or 180 x \$0.00080 = \$0.14. For March the SC adjustment rate is \$0.00080, resulting in a \$0.14 rate. For April the SC adjustment rate is \$0.00086 resulting in a \$0.15 rate. For May the SC adjustment rate is \$0.00091, resulting in a \$0.16 rate.
