## Upper Midwest Order Sources of Producer Milk

**D**uring December 2025, about 69.6% of producer milk on the Upper Midwest Order was received from Wisconsin, with 21.0% coming from Minnesota. (See Table 1 below.)

The remaining producer milk, about 9.4%, was primarily received from South Dakota, Iowa, Illinois, North Dakota, Indiana, Michigan, and Missouri with a small quantity of milk from Ohio, Texas, Colorado, and Kentucky.

The map on Page 3 depicts the states and counties from which producer milk was received in December 2025.

Producer milk in December 2025 totaled 1.2 billion pounds, down 879 million pounds from the previous year. The volume of producer milk pooled monthly in 2025 ranged from 1.2 billion pounds in December to 2.6 billion pounds in March. The variations were due to dif-

ferences in the amount of milk not pooled because of class price relationships.

The 15 top counties from which producer milk was received in December 2025 are shown in Table 2 on Page 3, along with various data for December 2024.

Most of the top 15 counties in December 2025 were in Wisconsin, with only two in Minnesota. Rankings for several counties were much higher than a year earlier. The biggest change was Adams county, rising from rank 72 all the way to rank 11. A majority of the counties, 11 of the top 15 counties, in 2025 were in the top 15 in 2024.

The top 15 counties supplied 39.7% of total producer milk on the order in December 2025, and accounted for 30.4% of the producers.
